

Animal Husbandry Answers 2014

Animal Husbandry Answers 2014

In areas where animals are handled, illumination should be uniform and diffuse. Shadows and bright spots should be minimized. Slats on the floor of shearing sheds and other animal facilities, should be eliminated so animals walk across the slats (48).

Behavioral Principles of Livestock Handling - grandin.com

Domestication is a sustained multi-generational relationship in which one group of organisms assumes a significant degree of influence over the reproduction and care of another group to secure a more predictable supply of resources from that second group.. Charles Darwin recognized the small number of traits that made domestic species different from their wild ancestors.

Domestication - Wikipedia

Poultry-Approved Paints and Livestock-Loving Lacquers. Many people are switching over to non-toxic paints and stains that are safe for humans but few actually stop and consider whether they're humane for our animal friends.

Choose Farm Animal Friendly Paints Says Paint Expert ...

The reindeer (*Rangifer tarandus*), also known as the caribou in North America, is a species of deer with circumpolar distribution, native to Arctic, sub-Arctic, tundra, boreal, and mountainous regions of northern Europe, Siberia, and North America. This includes both sedentary and migratory populations. Rangifer herd size varies greatly in different geographic regions.
