Tax Reform makes significant changes that impact most taxpayers. Increased deductions for bonus depreciation and Section 179 expense are just two of these changes impacting business taxpayers,

and these largely positive changes are two potential tax savings presents for businesses.

The history of accounting is thousands of years old and can be traced to ancient civilizations. The early development of accounting dates back to ancient Mesopotamia, and is closely related to developments in writing, counting and money; there is also evidence of early forms of bookkeeping in ancient Iran, and early auditing systems by the ancient Egyptians and Babylonians.
