

Debian User Guide

Debian User Guide

This manual describes the security of the Debian GNU/Linux operating system and within the Debian project. It starts with the process of securing and hardening the default Debian GNU/Linux installation (both manually and automatically), covers some of the common tasks involved in setting up a secure user and network environment, gives information on the security tools available, steps to take ...

Debian Linux Tutorial - Beginners Guide To Linux Servers ...

The Debian distribution was created in 1993 by Ian Murdock while a computer science student at Purdue University. He wanted a Linux distribution that was maintained in a free and open manner adhering to the original intent of Linux and GNU software.

Linux Basics Tutorial Guide for Beginners - About Debian ...

Debian Social Contract. Version 1.1 ratified on April 26, 2004. Supersedes Version 1.0 ratified on July 5, 1997. Debian, the producers of the Debian system, have created the Debian Social Contract. The Debian Free Software Guidelines (DFSG) part of the contract, initially designed as a set of commitments that we agree to abide by, has been adopted by the free software community as the basis of ...

Debian Social Contract

Debian (/ ' d ε b i ə n /) is a Unix-like operating system consisting entirely of free software. Ian Murdock founded the Debian Project on August 16, 1993. Debian 0.01 was released on September 15, 1993, and the first stable version, 1.1, was released on June 17, 1996. The Debian Stable branch is the most popular edition for personal computers and network servers, and is used as the basis ...

This guide is intended for those who want to set up a Iodine on a Debian or Ubuntu VPS. Lots of time has been spent through trial and error trying to figure it out.

Bypassing Captive Portals/Airport Pay Restrictions with ...

Debian stores its Apache 2.0 configuration files in the directory /etc/apache2. Normally the main Apache configuration file is called httpd.conf. Although that file exists on Debian, it is only there for compatibility with other software that expects it to exist.

Configuring Apache 2 on Debian, Ubuntu — Guide to Linux ...

This guide is intended for those who want to set up a PPTP VPN on OpenVZ with Debian or Ubuntu on a capable provider such as BuyVM.net. Lots of time has been spent ...

PPTP VPN Setup Guide for a Debian OpenVZ VPS - Put ...

4. Module path. The module path is either the full filename of the module, beginning with a "/", or a pathname that is relative to the default module directory, which is /lib/security/ on a Debian lenny system. In practice, this usually means that only the names of the modules are mentioned. The modules themselves are all named as pam_<name>.so. See the Linux-PAM System Administrator's Guide ...
