In finance, an option is a contract which gives the buyer (the owner or holder of the option) the right, but not the obligation, to buy or sell an underlying asset or instrument at a specified strike price prior to or on a specified date, depending on the form of the option. The strike price may be set by reference to the spot price (market price) of the underlying security or commodity on the ...

This post is also available in: Chinese (Simplified), French, German As I've previously written, I had the opportunity to visit South Africa recently and meet with a number of executives at companies there, as well as talk to people and observe various trends. It's important to note that we at Templeton Emerging Markets Group pursue an active, bottom-up approach to investing.
