LyX is a document processor that encourages an approach to writing based on the structure of your documents and not simply their appearance (). LyX combines the power and flexibility of TeX/LaTeX with the ease of use of a graphical interface. This results in world-class support for creation of mathematical content (via a fully integrated equation editor) and structured documents like academic ...

LyX | LyX - The Document Processor

A word processor (WP) is a computer program or device that provides for input, editing, formatting and output of text, often plus other features.. Early word processors were stand-alone devices dedicated to the function, but current word processors are word processor programs running on general purpose computers.. The functions of a word processor program fall somewhere between those of a ...
