v Chapter 15 covers additional ratemaking methods commonly used by commercial insurers. The methods are divided into two categories: those that alter the rate calculated from the rating manual and those that are employed by insurers to calculate a premium unique to a particular large commercial risk.

Basic Ratemaking Version 5 May 2016 2

In international relations, a middle power is a sovereign state that is not a superpower nor a great power, but still has large or moderate influence and international recognition.The concept of the "middle power" dates back to the origins of the European state system. In the late 16th century, Italian political thinker Giovanni Botero divided the world into three types of states ...
