Do either a quick estimation (no bills needed) or a more accurate calculation of the CO2 and other greenhouse gas emissions that you are responsible for, as an individual, over a 12 month period. In section 1, you enter household data, so that items such as household heating and car use are shared between the members of your household. In section 2, you enter personal lifestyle and travel ...

Carbon footprint calculator

Needs assessment is defined as the formal process of identifying and evaluation the needs of an organization or a defined group of people, such as a company or business. When we say identification of needs, it refers to the process of describing the problems associated with the group or organization and the possible solutions to address these problems.
