Mother - Wikipedia

The average age of first time mothers has risen to new highs, according to new federal data. The average age of women having a child for the first time rose from close to 25 in 2000 to around 26 ...

First Time Mothers Are Getting Older Than Ever on Average ...

The extremely high mortality rate among women is probably explainable by the fact the men were out in the fresh air, felling trees, building structures and drinking fresh New England water; while the women were confined to the damp, filthy and crowded quarters offered by the Mayflower, where disease would have spread much more quickly. The two-month voyage was long enough; the women, however ...

In all studies to date, the risks of circumcision have always exceeded any alleged benefits, a fact that often is not made clear to parents." Circumcision and the Code of Ethics, George C. Denniston, M.D., M.P.H., Humane Health Care International, Vol. 12, No. 2, April 1996.

Mothers Against Circumcision - Put your baby's welfare first

"Many people assume that celebrities who have babies after 40 must have undergone expensive fertility treatment. That is simply not true. I am a well-known celebrity and conceived naturally after 40.

Mothers Over 40 - Celebrity Older Mothers

While women in Japan were recognized as having equal legal rights to men after World War II, economic conditions for women remain unbalanced. Modern policy initiatives to encourage motherhood and workplace participation have had mixed results. While a high percentage of Japanese women are college graduates, making up 77% of the part-time work force, they typically earn 27% less than their male ...

I met my friend Rhonda through a local chapter of the national organization Single Mothers by Choice (SMC). She and I both joined around the same time. The first time we met in person I got out of my car, and I was greeted by a tiny woman in a shimmering magenta jogging suit, her eyes hidden behind big round black sunglasses.
