Self-organization, also called (in the social sciences) spontaneous order, is a process where some form of overall order arises from local interactions between parts of an initially disordered system. The process can be spontaneous when sufficient energy is available, not needing control by any external agent. It is often triggered by random fluctuations, amplified by positive feedback.

A domestic robot is a type of service robot, an autonomous robot that is primarily used for household chores, but may also be used for education, entertainment or therapy. Thus far, there are only a few limited models, though speculators, such as Bill Gates, have suggested that they could become more common in the future. While most domestic robots are simplistic, some are connected to WiFi ...

Marbury vs Madison. Marbury v Madison is best known for establishing the precedent of Judicial Review — reviewing an act of Congress and judging whether or not it is unconstitutional.

### **Marbury V. Madison - Constitutionality**

In this course we will investigate what causes inequality between women and men. How does it arise, why does it take different forms, why does it vary in degree across societies, what are the components that add up to gender inequality, how do various institutions and practices contribute to it, and how does it change?
