Animal euthanasia (euthanasia from Greek: εὐθανασία; "good death") is the act of putting an animal to death or allowing it to die by withholding extreme medical measures. Reasons for euthanasia include incurable (and especially painful) conditions or diseases, lack of resources to continue supporting the animal, or laboratory test procedures.

Animal euthanasia - Wikipedia

1. Introduction. Glaucoma, a group of ocular disorders characterized by progressive optic neuropathy , is a major leading cause of irreversible blindness worldwide .A global projection estimated that the number of patients with glaucoma may reach 111.8 million in 2040 .Previous studies have shown that intraocular pressure (IOP) is a major risk factor in glaucoma progression and control of IOP ...
