Spiritual Anatomy. Many cultural traditions contain an esoteric thread describing what might be referred to as the anatomy of the human soul. There are the ka and ba of Egyptian mythology, the meridians of acupuncture, the chakras and nadis of yoga, the sephiroth of Hebrew cabalistic tradition, and the etheric and astral bodies of western esoteric lore.

Gayle, The truth is, all of the names and labels are made up by our minds. The body doesn't know it has a core, it just functions. I would suggest that there is a "CORE" that we are discussing here, but the legs also have their own core. The deepest quad, intermedius, would be the most core of the quads.

With regards to the best mouthpiece placement there is some controversy among different authors and teachers. In his text, Arban's Complete Conservatory Method for Trumpet (Cornet), J.B. Arban stated, "The mouthpiece should be placed in the middle of the lips, two-thirds on the lower lip, and one-third on the upper lip." (Arban, 1982, p. 7).
