Liar The Theory Practice And

A lie is an assertion that is believed to be false, typically used with the purpose of deceiving someone. The practice of communicating lies is called lying, and a person who communicates a lie may be termed a liar. Lies may serve a variety of instrumental, interpersonal, or psychological functions for the individuals who use them.

You have four closed boxes as shown: While you know all four types of food are inside and each box only contains one type of food, you also know that only one of the boxes is labeled correctly. What's the minimum number of boxes that you need to open to be guaranteed to find out which one is labeled correctly? (Note: Guaranteed means in all possible scenarios, so you can't assume one that is ...

Like the recent hoaxes in Colorado, Texas, Illinois, and elsewhere, featuring the the remote takeover of radio stations, Madera's facile but too clever admission was brought to the attention of the FBI, and subsequently to the DoJ, who acts as the FCC's attorney in forfeiture actions. Ironically, Madera stated he has 'a Polish cousin' in the FCC, whom he induced (unsuccessfully) to discipline ...

Decision theory (or the theory of choice not to be confused with choice theory) is the study of an agent's choices. Decision theory can be broken into two branches: normative decision theory, which analyzes the outcomes of decisions or determines the optimal decisions given constraints and assumptions, and descriptive decision theory, which analyzes how agents actually make the decisions that ...

This is not at all related to Machine Learning. I lived in Squirrel Hill as a graduate student at Carnegie Mellon so the massacre there is feeling particularly immediate. While the person who did it is obviously culpable, the pattern of events makes it clear that others bear responsibility as well.

Act and Rule Utilitarianism. Utilitarianism is one of the best known and most influential moral theories. Like other forms of consequentialism, its core idea is that whether actions are morally right or wrong depends on their effects. More specifically, the only effects of actions that are relevant are the good and bad results that they produce.

Cultural Context: As time passes, the original cultural assumptions and cultural understanding of phrases and words will all change, making it impossible for many things to be understood by future audiences in the same way that the original authors meant them. The longer ago something was written, the less the context is clear to us today, and this opens the way for much culturally subjective ...
