

Online Video Game Price Guide

Online Video Game Price Guide

An online game is a video game that is either partially or primarily played through the Internet or any other computer network available. Online games are ubiquitous on modern gaming platforms, including PCs, consoles and mobile devices, and span many genres, including first-person shooters, strategy games and massively multiplayer online role-playing games (MMORPG).

Online game - Wikipedia

A video game is an electronic game that involves interaction with a user interface to generate visual feedback on a two- or three-dimensional video display device such as a TV screen, virtual reality headset or computer monitor. Since the 1980s, video games have become an increasingly important part of the entertainment industry, and whether they are also a form of art is a matter of dispute.

Aristotle A. Avinroo (better known as AAA), having survived the dungeons and video game worlds he was subjected to by the cruel King Roothless, has proved himself to be the one true Games Master. He's also set to prove just how petty he can be, breaking into the king's castle in the middle of the night just to keep him from falling asleep.
