Journal of Mathematical Analysis and Applications ...

Pattern recognition is the automated recognition of patterns and regularities in data. Pattern recognition is closely related to artificial intelligence and machine learning, together with applications such as data mining and knowledge discovery in databases (KDD), and is often used interchangeably with these terms. However, these are distinguished: machine learning is one approach to pattern ...

Pattern recognition - Wikipedia

1. CONCEPTUAL OVERVIEW Factor analysis is a means by which the regularity and order in phenomena can be discerned. As phenomena co-occur in space or in time, they are patterned; as these co-occurring phenomena are independent of each other, there are a number of distinct patterns.

A speckle pattern is an intensity pattern produced by the mutual interference of a set of wavefronts. This phenomenon has been investigated by scientists since the time of Newton, but speckles have come into prominence since the invention of the laser and have now found a variety of applications. The term speckle pattern is also commonly used in the experimental mechanics community to describe ...

U.S. National 90-Day Readmissions After Opioid Overdose Discharge Over the last two decades, U.S. hospitals have experienced increases in opioid overdose discharges. Authors examined 90-day readmissions among patients discharged from inpatient stays for opioid overdose and found more than 24% of patients had at least one all-cause readmission ≤ 90 days of initial discharge and 3% of patients ...

x Epidermal cells are positioned on the most out layer of skin and thus have the potential risk of being exposed to environmental factors. The biological effect of ionizing radiation (IR) on the skin tissue is a significant problem for medical applications, such as radiotherapy for cancer treatment.

x I read with great interest the article by Aguayo et al. 1 in a recent issue of the journal. The authors performed a retrospective study on 1,001,945 patients who underwent coronary artery bypass grafting and concluded that new-onset depression after coronary artery bypass grafting discharge was not associated with increased odds of mortality, morbidity, costs, or increased length of stay on ...

x Gastrointestinal bleeding (GIB) complicating ST-elevation myocardial infarction (STEMI) poses significant management challenges and may be associated with poor outcomes. We sought to evaluate the incidence and outcomes of GIB in STEMI patients using a nationwide database. We identified adults admitted with STEMI between in the National Inpatient Sample (2003-2016), and compared the morbidity ...
