To some people, small amounts of the compounds phenylthiocarbamide (PTC) or propylthiouracil (PROP) taste very bitter; other people do not taste these compounds. The myth is that there are only two kinds of people, tasters and non-tasters, and that the trait is controlled by a single gene, with the ...

Note: Wind facilities commencing construction by December 31, 2019, and all other qualifying facilities commencing construction by January 1, 2018 can qualify for this credit. The value of the credit for wind steps down in 2017, 2018 and 2019. See below for more information. For all other technologies, the credit is not available for systems whose construction commenced after December 31, 2017.

Hardness Measurement Instruments. A hand-held portable hardness tester for testing aluminum, aluminum alloys, copper, brass and other materials including plastics and fiberglass.

### **Gardco :: Hardness**

Supertasters were initially identified on the basis of the perceived intensity of propylthiouracil (PROP) compared to a reference salt solution. However, because supertasters have a larger sense of taste than medium or nontasters, this can cause scaling artifacts. Subsequently, salt has been replaced with a non-oral auditory standard.

Treatment. A variety of organisms and conditions can cause vaginitis, so treatment targets the specific cause: Bacterial vaginosis. For this type of vaginitis, your doctor may prescribe metronidazole (Flagyl) tablets that you take by mouth or metronidazole (MetroGel) gel or clindamycin (Cleocin) cream that you apply to your vagina.

Test procedure. The test is fast and can be performed in a doctor's office. A patient must not be receiving antibiotics. At least half a milliliter of feces is collected and a strip of nitrazine paper is dipped in the sample and compared against a color scale. A pH of less than 5.5 indicates an acidic sample.
