The environmental impact of paper is significant, which has led to changes in industry and behaviour at both business and personal levels. With the use of modern technology such as the printing press and the highly mechanized harvesting of wood, disposable paper became a relatively cheap commodity, which led to a high level of consumption and waste. The rise in global environmental issues such ...

Evidence suggests that the picture has not changed much since 2011. A 2015 study of federal court employment discrimination litigation by Theodore Eisenberg found that the employee win rate has dipped in recent years to an average of only 29.7 percent.⁴⁸ At the same time, another 2015 study found that the employee win rate in employment arbitration had also dipped in recent years, to an ...
