Key Points. SMART is a well-established tool that you can use to plan and achieve your goals. While there are a number of interpretations of the acronym's meaning, the most common one is that goals should be Specific, Measurable, Achievable, Relevant, and Time-bound.. When you use SMART, you can create clear, attainable and meaningful goals, and develop the motivation, action plan, and support ...

Though this post is old but still I see many people not able to get real Auto Complete intellisense  
feature because as soon as Auto Complete values exceeds 10 then autocomplete doesn't work i.e  
you need to explicitly use CTRL+SPACE for displaying intellisense in that case.. Please follow the  
steps so that you will be not faced with this problem.
